Program locations
Bring BDI closer
closer to you

In an effort to make BDI programs more accessible to San Diego County residents, BDI is now offering programs in two new locations in central San Diego. New locations include Sharp/Spectrum in Kearny Mesa and Kaiser Permanente in Mission Gorge. Both offer free parking and easy freeway access. BDI will continue to present programs at the Scripps Whittier Institute for Diabetes in La Jolla. **Thanks to our friends at Kaiser Permanente, Scripps and Sharp HealthCare for their generous support.**
